

The Pattaya 8-Ball Pool League

Playing Rules

1 THE GAME

The game shall be known as 8 Ball Pool and referred to in these rules as "The Game". It is intended that players and teams should play 8 Ball Pool in the true spirit of the game and in a sportsmanlike manner. It should be clearly understood that the referee is the sole judge of what is fair and unfair play. The referee will take whatever action is necessary to ensure that these rules are observed.

2 REQUIREMENTS OF THE GAME

The game is played on a 6-pocket table with 15 object balls plus a cue ball. Object balls are comprised of two differently coloured groups of 7 balls (usually red and yellow) plus a black ball (the 8 ball). Alternatively, numbered balls may be used; numbers 1-7, usually various solid colours (and sometimes called 'spots' or 'unders'); and 9-15, usually various colours with a white band (and sometimes called 'stripes' or 'overs'); and the 8 ball which is always black.

3 OBJECT OF THE GAME

The player or team pocketing all their group of object balls in any order, and then legally pocketing the 8 ball, wins the game.

4 COMMENCEMENT OF THE GAME (OR RESTART)

- a) The balls are racked as illustrated with the 8 ball (black) on the 8 ball spot, which is at the intersection of the centre and corner pockets.

- b) Order of play is determined by the toss of a coin. The winner of the toss has the option of breaking, or requesting their opponent to do so.
- c) The opening player plays at the triangle of object balls by striking the cue ball from any position on, or within, the 'D'. An object ball must be pocketed, or at least TWO object balls hit any cushion. Failure to do so is a foul break and will result in the balls being re-racked as illustrated. The opposing player then starts the game with two visits.
- d) If the 8 ball (black) is pocketed from the break shot, the balls will be re-racked and the same player will restart the game. No penalty will be incurred. This applies even if other balls, including the cue ball, are pocketed, or leave the playing surface ('off the table').
- e) On the first occasion a player legally pockets an object ball, including following a foul, then that ball denotes their group, unless one or more of both groups are pocketed in which case the next ball that is struck becomes that player's group.
- f) If no object ball is pocketed from a legal break, then the players continue alternatively playing at either group until such a time as a legal pot is made, which decides the player's group.
- g) If a foul is committed, (other than as in rule 4(d)), and one or more object balls are pocketed before playing groups are decided, then those balls are ignored in determining the groups to be played. The oncoming player may play at any ball on the table, including the 8 ball (black) for the first shot, the first legal pot to determine the group as in rule 4(e).
- h) If a ball, or balls, is legally pocketed, this entitles the player to one additional shot and this continues until the player either:
 - i) Fails to pocket one of their own set of allocated balls, or;
 - ii) Commits a foul at any time.
- i) Combination shots are allowed, providing the player hits one of their own group first, or any ball with the first shot following any foul (rule 6(c)).

5 FOULS

- a) In off (cue ball pocketed).
- b) Hitting an opponent's ball(s) with the cue ball on first impact of the cue ball, except with the first shot following any foul.
- c) Failing to hit any ball with the cue ball, except where rule 8(c) applies.
- d) Jump shot - defined as when the cue ball jumps over any part of any ball before making contact with any ball.
- e) Hitting the 8 ball (black) with the cue ball on first impact of the cue ball before all their own group are pocketed, except with the first shot following any foul.
- f) Potting any opponent's ball, except with the first shot following any foul.
- g) Ball off the table.
A ball shall be deemed "off the table" if it comes to rest anywhere other than on the bed of the table.
 - i) Any object ball or the 8 ball (black), shall be returned to the 8 ball spot (rule 4(a)), or as near as possible to that spot without touching any other ball, in direct line between that spot and the centre of the string line.
 - ii) If the cue ball, then the cue ball played from in hand (rule 8(b)).
- h) If a player's body or clothing should touch any ball except the cue ball after the referee calls a "foul", when the player is entitled to the cue ball in hand (rule 6(b)).
 - i) Player not having at least part of one foot on the floor.
 - j) Playing or touching with the cue any ball other than the cue ball.
 - k) Striking the cue ball with any part of the cue other than the tip.
 - l) Playing out of turn.
 - m) Playing before all balls have come to rest.
 - n) Playing before any ball(s) that require that re-spotting are re-spotted.
 - o) Striking the cue ball with the cue more than once.
 - p) Push shot - defined as where the cue tip remains in contact with the cue ball for more than the momentary time commensurate with a normal stroked shot, or the cue tip remains in contact with the cue ball once it has commenced its forward motion.
 - q) Foul break – defined as failing to pot an object ball or drive at least two object balls to hit any cushions.
 - r) Taking a phone call during a game whether in control of the table (rule 8(c)) or not.

6 PENALTY FOLLOWING ANY FOUL

- a) Following any foul the offending player loses their next visit to the table, giving their opponent two consecutive visits to the table.
- b) If the cue ball has come to rest on the playing surface, then the player having two visits may proceed to play from where the cue ball lies, or the cue ball may be played from any position on or within the 'D'. Moving the cue ball in this manner does not count as a shot, or visit. (Players are advised to ask the referee to hand them the cue ball).
- c) On the first shot only of the first visit, the oncoming player may, without nomination, play the cue ball on to any ball without penalty, including any opponent's ball(s), or 8 ball (black). If any object ball(s) is pocketed directly, or by combination, the player is deemed to have pocketed a legal ball(s), and continues with the first visit. However, the player must not pot the 8 ball (black), which would mean loss of game except if the player is on the 8 ball (black), then the game would be won. When the player fails to pot a ball on the first or subsequent shot of the first visit, play then continues with the second visit. The second visit is deemed to have started when the cue ball is struck on the first shot of the second visit.

7 LOSS OF GAME

- a) If a player pockets the 8 ball (black) before all the balls in their own group, except on the break (rule 4(d)), the player loses the game.
- b) A player going in off the 8 ball (black) when the 8 ball (black) is pocketed loses the game.
- c) A player pocketing the 8 ball (black) and any other ball on the same shot will lose the game. Except following a foul when only the 8 ball (black) and ball(s) of the opponents group are on the table, then with the first shot of the first visit, the player may legally pocket the 8 ball (black) as well as ball(s) of the opponent's group by any combination and in any order.
- d) A player who clearly fails to make any attempt to play a ball of their own group will lose the game.
- e) A player who takes a second phone call during a game (rule 5(r)) will lose the game.

8 GENERAL

- a) Touching ball.
 - i) When the cue ball is touching an opponent's ball or the 8 ball (black); the player must play away from the touching ball and contact a ball of his own group, except on the first shot of the first visit following any foul which entitles the player to any ball.
 - ii) When the cue ball is touching any ball the player is legally entitled to play; the player must play away from the touching ball, and is deemed to have played that ball. Should the cue ball fail to make contact with any ball, or strike the opponent's ball, or 8 ball (black), then the shot is fair, no foul.
- b) Cue ball in hand.

When a player has the cue ball in hand, the ball is played from any position on, or within the 'D', and in any direction.
- c) Player in control.

A player is said to be in control of the table from the time their body, cue, or clothing touches the table prior to their shot, throughout the visit, and up until the opponent does likewise prior to their visit. Any ball(s) which fall into pockets during this period including the 8 ball (black), are said to have been potted by that player and they are liable to any penalties or benefits normally awarded to them for the potting of that ball(s), as are accorded to them in the rules of the game (rule 5).
- d) Completion of game.

The game is completed when the 8 ball (black) is pocketed legally in any pocket, and all the remaining balls have come to rest, except on the break (rule 4 (d)).

9 STALEMATE

Should any situation arise whereby a legal shot is impossible to play, then the game shall be restarted by the player who started that frame, whether this situation has been arrived at by accident or design. If in the opinion of the referee neither player is allowing the game to progress, or a stalemate situation has arisen, then the game shall be restarted by the player who started that frame. The referee shall not allow numerous visits with neither player making any attempt to make the opening pot which decides the playing groups (unless it is felt that progress is being made). If the player who started that frame did so by virtue of their opponent making a foul break, that player will break on any restart, not the opponent who made the foul break.

10 GUIDANCE

- a) The term "SHOT" means striking the cue ball once.
- b) The term "VISIT" refers to the one turn at the table comprising of one or a series of shots.
- c) The term "BREAK" refers to the first shot of a game, or the first shot of a game being restarted.
- d) Coaching is deemed unsportsmanlike behaviour (rule 1).
- e) A referee may, only if requested, advise on the rules of the game.

ADDITIONAL NOTES

These rules are the 'old' EPA (English Pool Association) Rules as used in UK League matches with a few minor amendments to make them more relevant to local playing circumstances.

The following notes are to clarify a few rules which sometimes cause problems.

1. Where the rules refer to the 'D' it shall be considered to be anywhere behind the baulk line ie the head string.

2. Coaching is considered unsportsmanlike behaviour (rules 1 and 10(d)). If the referee decides that coaching has occurred - by any word or action from spectators that couldn't be considered to be normal support or barracking - the referee shall issue a 'first and final' warning. If coaching reoccurs the player will be penalised via a standard foul (rule 6(a)).

In doubles, talking between partners is allowed at any time.

Only the player whose turn it is, is allowed to touch the table. Breach of this rule shall be dealt with as coaching - 'first and final' warning followed by a standard foul.

3. A player who plays a deliberate foul will lose the game.

A deliberate foul can be defined as a shot that (in the referee's opinion):

- a) Is played intentionally to (directly or indirectly) pot an opponents ball;
- b) Is played intentionally to contact the opponent's ball before one of the player's own group or otherwise to fail to make contact with a ball of the player's own group (rule 7d). This includes when playing out of a snooker when a player must make a reasonable attempt to contact a ball of his own group.

4. Touching ball. When the cue ball is touching another ball, the player must play away from the touching ball (see rule 8(a)).

'Playing away' is considered to be playing away at such an angle that the touching ball is not disturbed. If the touching ball moves because of contact with the cue ball, it is a foul shot. If the touching ball moves and the referee decides that it moved by means outside the control of the player (for example, because of an imperfection in the table), he may rule that it is no foul.

5. Players should turn off their mobile phones or hand them to someone else after a game commences. A player who answers a phone during a game, whether at the table or not, will have committed a foul shot (rule 5(r)) or, for a second offence in the same game, will lose the game (rule 7(e)). This applies to both singles and doubles.

6. Unless specifically asked by the player, the referee is not permitted to offer advice, even if the referee thinks the player may be about to play a foul shot (rule 10(e)).
